

Corina Dumaresque wins NLOWE award.

I am General Manager and 50% Shareholder of Dumaresque Desktop Design Inc. I happily joined the operation in April 2002. I bring a positive and organized work ethic to the enterprise as well as a wealth of business expertise and knowledge. I am educated as a Professional General Accountant and have benefited from 13 years experience in business and have worked in Management and Administration for one of Canada's largest Enterprises, HBC "The Hudson's Bay Company". I feel I have personable and positive traits that allow me to thoughtfully always put the customers needs first. With well-rounded communication skills my clients are always happy and satisfied upon the completion of their projects. I pride myself on completing unique, high quality products. Upon my joining the business the sales have tripled and the future looks very bright for both my self and Dumaresque Desktop Design Inc. I am now in the process of adding a new embroidery line to the company called "Canadian Stitches" and am aggressively marketing the business by developing an e-commerce web site, running radio advertising campaigns and publishing a professional catalogue.
